ABOUT ME

"Passionate about writing clean code and building efficient solutions."

WORK EXPERIENCE

Cloud engineer

ABN AMRO Bank [01/2025 – Current]

City: Amsterdam | **Country:** Netherlands

- Developing and optimizing cloud-based solutions within ABN AMRO's infrastructure.
- Designed and implemented a **centralized JavaScript library** for **Planon SaaS**, improving maintainability and reducing redundancy in embedded scripts.
- Integrated **Azure Blob Storage** to host and manage JavaScript assets, ensuring efficient storage, retrieval, and versioning.
- Developed an **automated deployment pipeline** using **Azure DevOps**, enabling seamless updates to the JavaScript library.
- Worked with **Mendix** to automate **end-to-end testing** using **Playwright (Microsoft)**, improving test efficiency and reliability.

Full-stack developer

Share Network [04/2023 – 10/2024]

City: Amsterdam | **Country:** Netherlands

- Developed dynamic and interactive web applications using **Nuxt.js & Vue.js** for the frontend.
- Built scalable backend services using **Node.js** and **Supabase**, integrating real-time data.
- Engineered **React Native** mobile applications for cross-platform usability.
- Created immersive 3D user experiences with **Three.js**.
- Designed and implemented **API integrations** for seamless third-party service communication.
- Worked with **PrimeVue** for enhanced UI/UX, ensuring an engaging user experience.

Front-end Developer

Compro Solution (Hybrid) [2018 – 2022]

City: Dubai | **Country:** United Arab Emirates

- Led frontend development using **React.js**, delivering high-performance applications.
- Built and optimized UI components with **Astro.js** for server-side rendering and speed.
- Developed interactive and responsive designs using **Bootstrap** and **Tailwind CSS**.
- Worked with **JavaScript & TypeScript** to create type-safe, maintainable codebases.
- Managed **MySQL** databases and implemented backend integrations.
- Used **GitHub** for version control and **CI/CD pipelines** for automated deployments.
- Applied **Figma** for UI/UX design, collaborating with designers for seamless implementation.
